THE LIVE DESIGN PROJECT

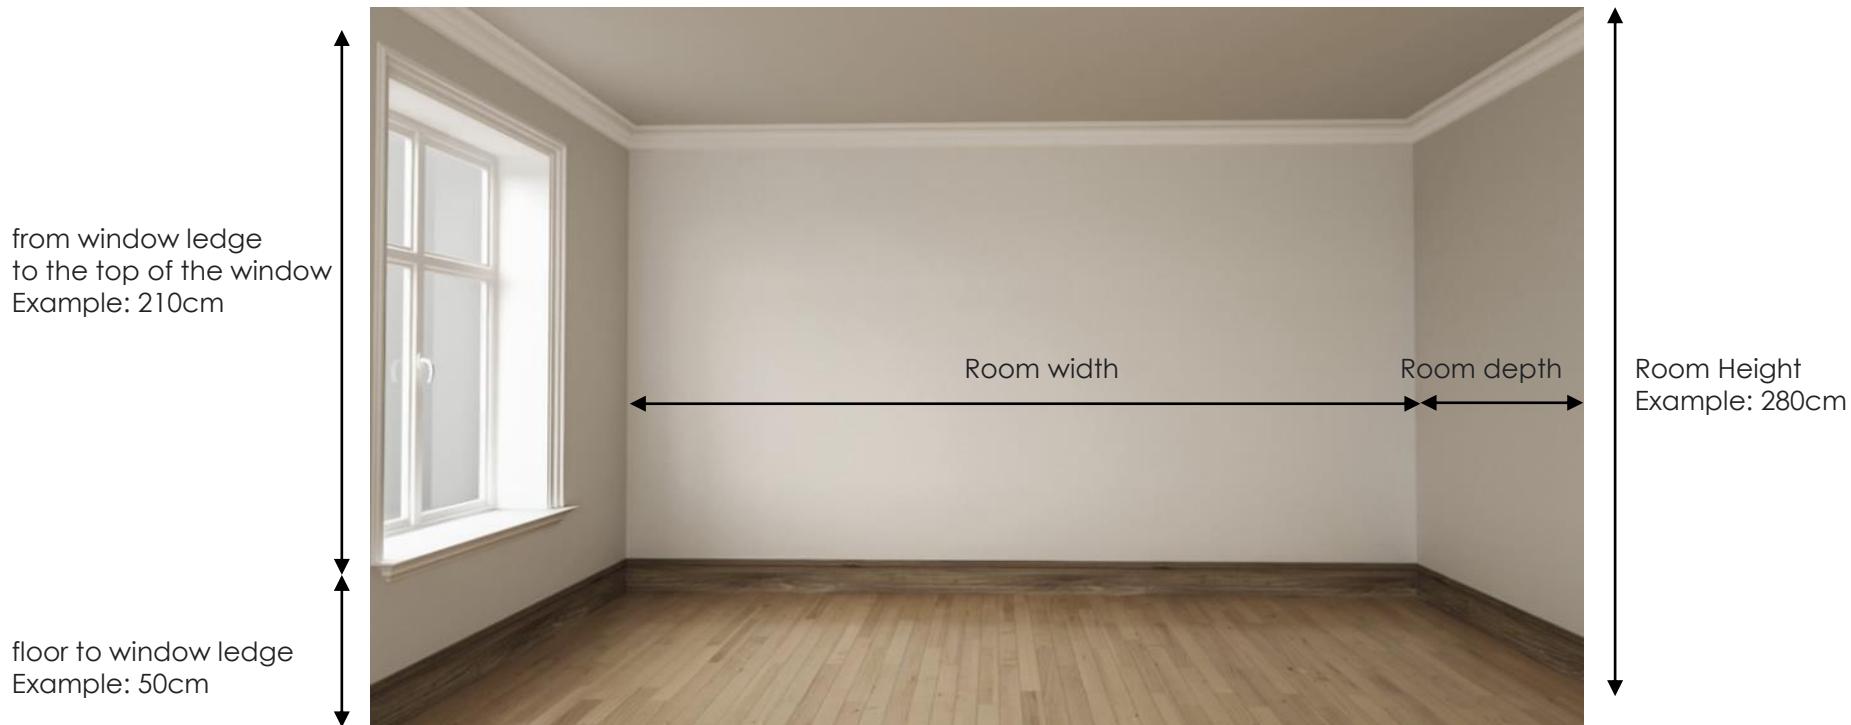

HOW TO MEASURE YOUR SPACE

www.thelivedesignproject.com

WRITE OVER A PHOTO

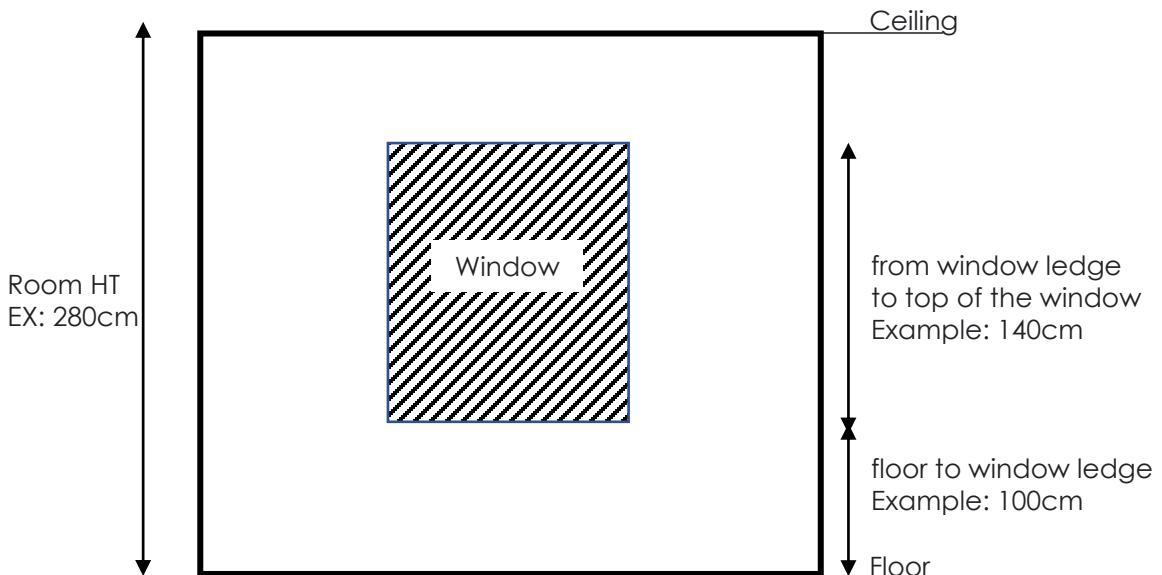

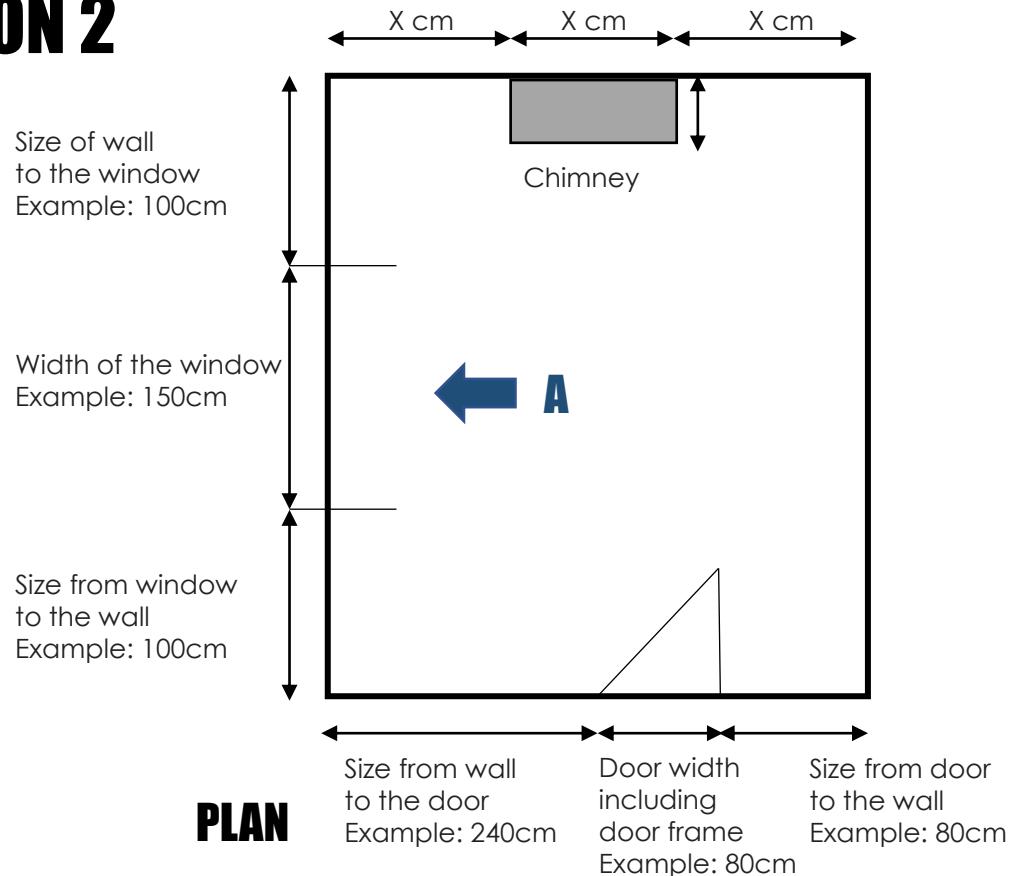

OPTION 1

- Your sketch doesn't have to be to scale
- Specify your unit: millimetre (mm), centimetre (cm), inches (in), foot (ft)
- Take a photo of the 4 sides of the room and indicate doors, windows & openings dimensions

DRAW A SKETCH

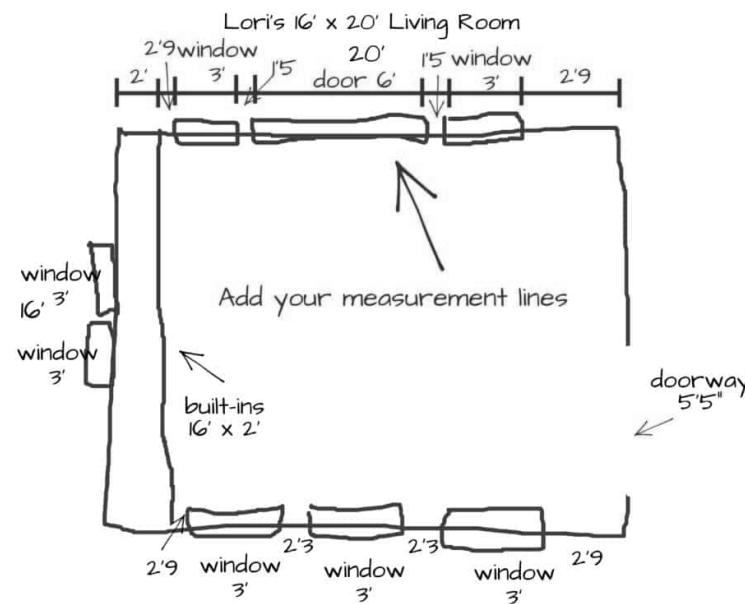

OPTION 2

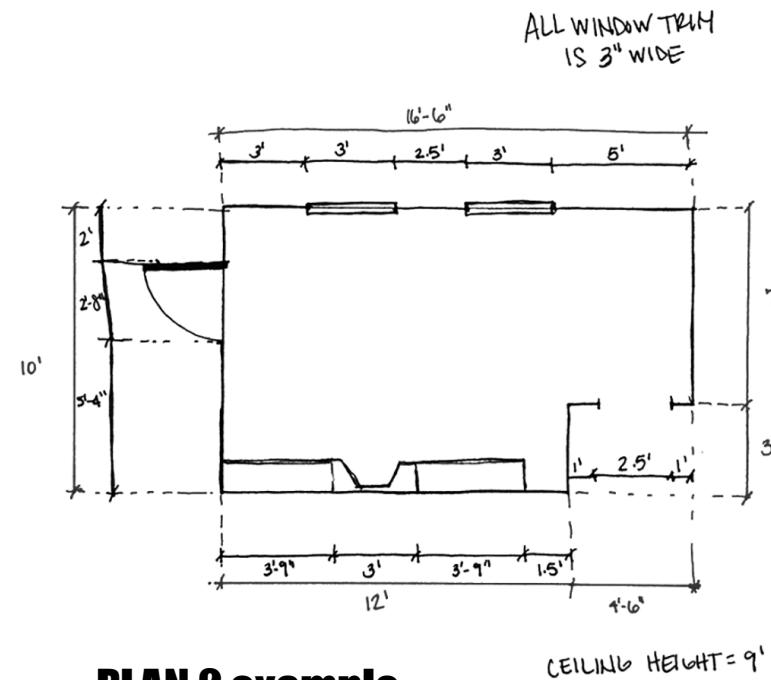

- Your sketch doesn't have to be to scale
- Specify your unit: millimetre (mm), centimetre (cm), inches (in), foot (ft)
- Take a photo of the 4 sides of the room and indicate doors, windows & openings dimensions
- Draw 4 elevations, 1 for each side of the room if it is not an empty wall

DRAW A SKETCH BY HAND

OPTION 3

PLAN 1 example

PLAN 2 example

- Your sketch doesn't have to be to scale
- Specify your unit: millimetre (mm), centimetre (cm), inches (in), foot (ft)
- Take a photo of the 4 sides of the room and indicate doors, windows & openings dimensions
- Draw 4 elevations, 1 for each side of the room if it is not an empty wall

EXISTING FURNITURE

- If you would like to reuse furniture, take a photo & write sizes over it (overall width(W) x Depth(D) x Height(HT)are sufficient)
